Growing Smiles Masterclass 2023.

2 November 2023 in Manchester.

4 November 2023 in London.

Learn more about how to optimise Invisalign® treatment for children and teen patients.

During this masterclass, you will join Dr Barry Glaser and Dr Roopa Kukadia to discover how to:

- Use the Invisalign® system to achieve predictable clinical outcomes in the correction of developing malocclusions in primary or deciduous teeth.
- Communicate with patients and their parents and overcome the common objections to treatment.
- Undertake comprehensive treatment planning for children and teen patients, including how to approach various malocclusions and treatment modalities.
- Integrate Invisalign® treatment for growing patients into your practice.
- Rectify a case that goes wrong, including how to monitor cases and troubleshoot them.
- Manage compliance and retention in growing patients.
- Treatment plan and modify cases using ClinCheck® software with 3D Controls.
